tomwionzek.com | thomas.wionzek@post.harvard.edu | /in/tomwionzek | (617) 999-9190 | Seattle, WA

EDUCATION

Harvard College

Bachelor of Arts in Computer Science

Cambridge, MA

2004 – 2009

- **Coursework:** Data Structures, Algorithms, Advanced Comp. Architecture, Systems, Theoretical Linear Algebra
- **Teaching Fellow:** Introduction to Computer Science (CS50)

EXPERIENCE

Consiliora

Founder and CEO

Seattle, WA

2021 – 2022

- Defined and designed an online marketplace connecting people with experts across various fields.
- Engineered scalable, full-stack infrastructure and continuous delivery pipeline in AWS CDK with Next.js, Express.js, PostgreSQL, Flyway, Docker, Jest, Testcafé, GitHub Actions, and more.

Microsoft Office • Collaboration on Apple Platforms

Senior Program Manager and Apple Platforms Design Owner

Redmond, WA

2015 – 2018

- Led product management and design on Apple platforms for three teams in Office Collaboration, managing planning, coordination, designs, customers, and impact for 20+ engineers.
- Approved, designed, and finalized all collaboration UX in Word, Excel, and PowerPoint on Apple platforms, ensuring a consistent and high-quality user experience for 50 million+ customers.
- Pioneered the team's first data analytics dashboard for authentication and spearheaded experimentation efforts, boosting first-time sign-in and sign-up success in Office apps on iOS by 30%.
- Managed, coached, and mentored junior PMs.

Microsoft • OneNote on Apple Platforms

Program Manager and UX Designer

Redmond, WA

2012 – 2015

- Key leader in bringing OneNote to the Mac, defining the core UX and key features which propelled the app to #1 in the App Store for months, earning a 4.7-star rating and Apple's coveted Editors' Choice award.
- Championed redesigning our iPhone UX for iOS 7, convincing leadership to fund the project and leading the transformation, resulting in a significant boost in App Store ratings & downloads, overtaking Evernote.
- Defined the first-ever screen reader UX of OneNote's canvas for VoiceOver, Apple's native screen reader, earning high praise from non-sighted users for ease of understanding.

Microsoft • OneNote on iPhone

Program Manager and UX Designer

Redmond, WA

2009 – 2011

- Led the launch of Microsoft's first-ever app on iPhone, a major shift in company strategy whose success paved way for the rest of Office (Word, Excel, PowerPoint) to launch on iOS.
- Defined product scope, priorities, end-to-end experience, and feature behaviors, authoring all 20+ specs.
- Project managed an Agile team, introducing Scrum to Office, exceeding expectations by shipping in a year.
